facts & figures

CLIENT

A leading global windpower equipment manufacturer

LOCATION

EXW Lianyungang, Tianjin and Nanjing to DAP Ho Chi Minh, Vietnam

PROJECT PERIOD

2020 - 2025

TOTAL CARGO WEIGHT / VOLUME

425,000 cbm

SCOPE DETAILS

TGP's scope of work included loading, seafreight, clearance and discharge of 57 sets of GW155-3.0MW offshore wind turbine sets. Each set included towers and blades as well as the hub, nacelle and generator.

The blades measured over 76m, and as a result, required careful loading, stowage and offloading which was successfully executed by the experienced TGP team.
