

CASE STUDY

# Offshore Oil Pipeline Installation Project, Australia

OIL & GAS

[tglobal.com](https://tglobal.com)

# facts & figures

## CLIENT

A global EPC contractor

## LOCATION

Global origins to Onslow, WA, Australia

## PROJECT PERIOD

2023 – 2025

## SCOPE OF WORK

TGP is currently delivering this project through the port of Dampier, WA, and providing marine agency, full-scope supply base management at the nearby Karratha facility (including personnel, and material handling equipment), international freight clearance, domestic logistics, low-value purchasing and waste management services.

TGP has been providing a suite of additional value-added services to the client, including fuel purchase and delivery for its marine fleet, low value purchasing and ad hoc site work.
