# facts & figures

## CLIENT

A leading German steel producer

## LOCATION

Inland river port to Salzgitter, Germany

## PROJECT PERIOD

2025 - 2025

## TOTAL CARGO WEIGHT / VOLUME

Multiple material packages / 3,235 cbm / 399,348 KGs

## SCOPE OF WORK

TGP managed the delivery of components for the process gas heater, including on-site delivery coordination to ensure the timely delivery of various material packages. This involved handling cargo with heights of up to 6.45 m.

Delivery was planned in compliance with special steel mill regulations, covering transport from the inland river port to the final destination and incorporating specialized trailer configurations.
